GRAIN PROCESSING TECHNOLOGIES

* WHEAT PROCESSING * CORN PROCESSING * FEED PRODUCTION * RICE PLANTS * LENTIL PLANTS * STORAGE SOLUTIONS

We proudly announce ourselves as Ozpolat Grain Processing Technologies, with our experience of more than half a century in the production of grain processing technologies and our smart products with the latest technology.

Our company has proven its dedication to technology manufacturing by establishing the R&D Department in 1997 and by gaining various product awards since then.

Our company, which has been providing industry-leading products to the international market since the 1990s, has more than 300 references in 5 continents covering 40 countries such as Germany, France, Russia, South Korea, Brazil, Iraq, Austria, and Egypt.

With our offices and representatives in 15 countries and our 24/7 service support line, we are very close to you in everything you need.

Mehmet Şerif Özpolat testing the De-Stoner he manufactured. 1966 / GAZIANTEP

Our company, which was founded by Mehmet Şerif Özpolat in 1966, has been establishing turn-key factories since 1979. The first one-piece, cast-body, fully-automatic roller mill was produced by us in Turkey in 1980. We have been continuing production in the largest Organized Industrial Zone in Turkey, Gaziantep Organized Industrial Zone for the last 40 years.

özpolat GRAIN PROCESSING TECHNOLOGIES

Wheat Processing Technologies

Our flour, semolina and bulgur technologies...

Areas of Expertise:

- * Consultancy
- * Facilities Design
- * Steel Construction Chassis
- * Diagram and Engineering Services
- * Machinery Manufacturing
- * Assembly and Erection
- * Flow and Aspiration Pipes System
- * Electrical Control and Command System
- * Commissioning
- * Training and Service and Maintenance

Wheat flour factories, wheat semolina factories, and bulgur plants since 1966 are among our areas of expertise.

Production Capacities:

- 15 tons/day
- 25 tons/day
- 50 tons/day
- 60 tons/day
- 75 tons/day
- 100 tons/day
- 120 tons/day
- 150 tons/day
- 200 tons/day
- 250 tons/day
- 300 tons/day
- 400 tons/day
- 500 tons/day
- 650 tons/day
- 1300 tons/day
- 1500 tons/day and much more...

özpolat GRAIN PROCESSING TECHNOLOGIES

Corn Processing Technologies

Corn flour and semolina, grits, chips, bread, cooking, beverage industry ...

We are confident about corn!

We provide corn-processing facilities

to produce corn flour,

to produce corn semolina,

to produce grits

just the way you want or need.

For years, we have been establishing food facilities that can meet the highest quality standards in the world, flour and semolina factories that can be the most efficient and the optimal solution for you, grits and crushing facilities to be operated for the beverage industry, flake mills for both human and animal consumption, corn facilities for animal feed production.

Production Capacities:

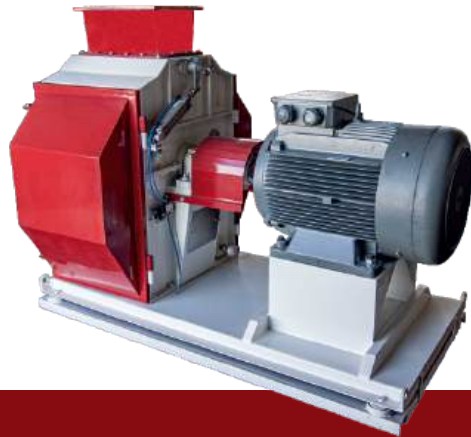

- 60 tons/day
- 120 tons/day
- 250 tons/day
- 300 tons/day
- 400 tons/day and much more...

özpolat GRAIN PROCESSING TECHNOLOGIES

Feed Production Technologies

Cattle, sheep, poultry, and fish feed...

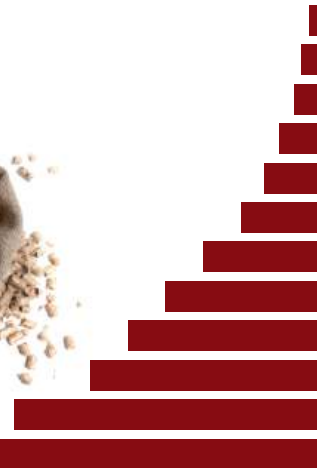

If you are looking for a state-of-the-art, highly efficient, and easy-to-use feed mill to produce cattle feed, sheep feed, goat feed, poultry feed, or fish feed; all for the meat industry, egg industry, or dairy industry, or if you have to feed animals in farms having more than 10 thousand animals, Ozpolat is the place to go.

Production Capacities:

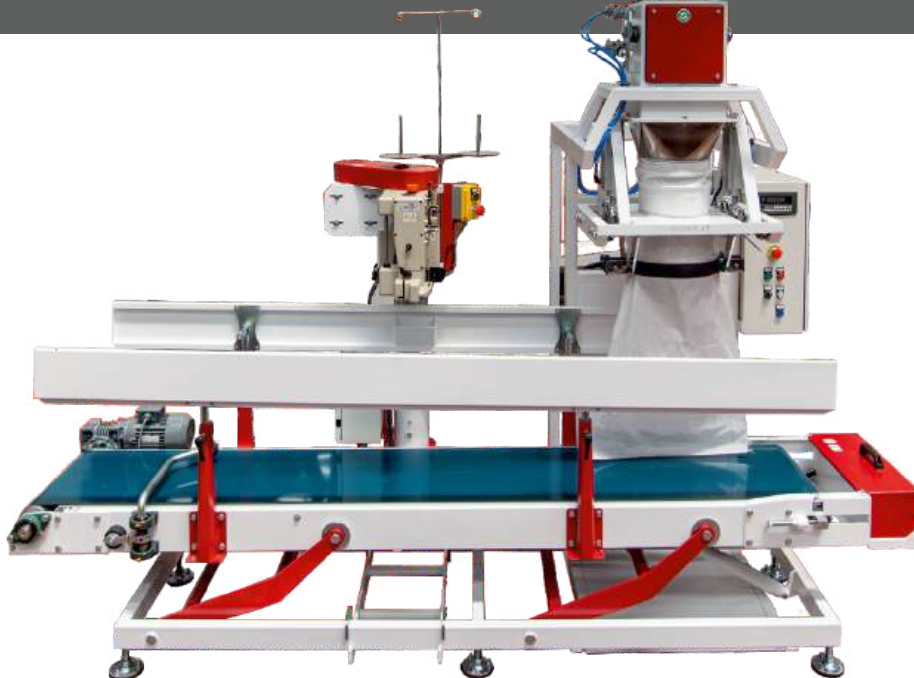

- 1 ton/hour
- 2 tons/hour
- 3 tons/hour
- 5 tons/hour
- 7 tons/hour
- 10 tons/hour
- 15 tons/hour
- 20 tons/hour
- 25 tons/hour
- 30 tons/hour
- 40 tons/hour
- 80 tons/hour and much more...

özpolat GRAIN PROCESSING TECHNOLOGIES

Storage and Packaging Technologies

Thousands of tons of cleaning, packaging, and storage systems...

We build storage and packaging systems that meet your needs and expectations while considering both today and the future, your land, and your facility. Now you can store grains or legumes you wish in large capacities and demand conditions.
